

BIOLOGICAL FILTER OR BACTERIA FILTERMODEL: CVC-FB**Function:**

- Organic matter removal (BOD5).

Characteristics:

- Manufactured by Salher, Model CVC-FB
- Made of Fiberglass Reinforced Polyester (FGRP) with orthophthalic resin.
- Organic matter removal efficiency: 80-90 % (BOD5).
- Secondary treatment through biological filter supplied via stationary distributor with evacuation system in the bottom part and natural ventilation. In option: rotary distributor.
- Filling up with synthetic materials and high cavity index (95%) and large specific surface (240m²/m³).
- PVC inlet and outlet pipes
- Access for cleaning only to authorized service staff through manhole with cover in Fiberglass Reinforced Polyester (FGRP).
- Connection pipe located in the manhole to install the air vent (or possibility to install it in any other place).
