

ULTRASOUND LEVEL DETECTOR
MODEL: NIV-ULT**Characteristics:**

- Level ultrasound detector.
- Range: 0-15 mts.
- Temperature from -20 till +60°C.
- Four digits indicator.
- Output in mA (4-20 mA).
- Two controlling points ALL/NOTHING. (2 output relays, max 50V, 1 A resistance)
- Frequency 30 kHz.
- Beam width 3°
- Thread G 1". ISO 228.
- Power 220/110 ± 10% or 10-30 VDC.
- Consumption 2 W.
- IP 65.
- Sensor IP 68.
- 12m long sensor cable.
- Short joint for ultrasound sensor mounting (120 mm).
- In option junction box and additional cable of max. 50 m length.
