

ULTRASOUND METER FOR OPEN CANALS**MODEL: MC-CU**

- Principle: Ultrasound
- Flushing meter in open canals
- Digital indicator
- Size: 185 x 240 x 115 mm
- Output 4 -20mA
- Pulsation output
- IP 65
- 4 measurement points
- RS 232 output
- Ultrasound meter, range 0-0.3m, 0-1m or 0-3m.
- 12 m long cable (with sensor).
- Indicates instantaneous the flow average from the last hour and the last 24 hours
- Indicates total flow from the last hour and the last 24 hours.
- Sensor clamp in canal. Maximum width: 950 mm.
- In option: junction box and up to 50 m long extra cable.

REF.**MC-CU**
